Harrogate

Royal Bath Hospital

A National Hospital for the
Treatment of Rheumatic Diseases

Founded 1824.

AND

**Rawson
Convalescent Home**

Founded 1888.

116th ANNUAL REPORT.

Price to Non-Subscribers—One Shilling.

SPECIAL NOTICE.

The Committee desire to make it as widely known as possible that the Hospital IS OPEN ALL THE YEAR ROUND, and the buildings are well warmed throughout.

During the months of January, February and March, an increased number of patients could be admitted.

Annual Subscriptions for 1942 are now due.

Subscribers who have not already paid their Subscriptions are earnestly asked to do so now, and thus save the expense of sending out the usual Subscription reminders.

ANNUAL MEETING

Saturday, 21st February, 1942.

The 116th Annual General Meeting of the Royal Bath Hospital and Rawson Convalescent Home was held on Saturday, 21st February, 1942.

Dr. G. L. Kerr Pringle, M.C., M.D., presided. Among those present were The Mayor of Harrogate (Councillor E. Schofield, J.P.), C. E. Carter, Esq., J.P. (Chairman of the Board of Management), Stanley Barnes, Esq. (Hon. Treasurer), W. H. Ferrand, Esq., J.P., J. S. Holmes, Esq., J.P., M. E. Mail, Esq., C. E. Morris, Esq., A. Woodhead, Esq., Dr. W. Yeoman, Dr. A. C. Sharp, Dr. R. Nimmo Watson, Dr. J. L. Wesley-Smith, Dr. Dorothy Potter, Dr. Muriel Keyes, G. Chapman, Esq., H. J. Guild, Esq., C. J. Simpson, Esq., Mrs. Geldart, The Matron (Miss E. C. Baynes) and the Secretary.

Apologies for absence were received from The Earl of Harewood, Viscount Mountgarret, Col. W. F. Collins, Col. V. J. Greenwood, Mr. R. A. Breare, Mr. Herbert Crowther, Mr. J. W. May, Mr. W. Arthur Taylor, Mr. C. D'Oyly Grange, Mr. A. Woodmansey, and Mrs. J. J. Norton.

DR. PRINGLE, moving the adoption of the various Reports, said he wished to draw special attention to the large reduction of Service cases admitted during the year. The two sources of supply were from the E.M.S. Hospitals and the Military Hospitals in the Northern Command. The supply from the former source had practically stopped. In consequence of this a small deputation, of which he was a member, went to London to interview the Director at the Ministry. Although the Director is himself a member of the Empire Rheumatism Council he showed himself entirely unsympathetic to the views put forward by the deputation, stating that he had little faith in Spa treatment, that the number of cases requiring such treatment was very few and that any cases there were were best treated in a General Hospital.

The Spas, however, had been the pioneers of physical treatment, yet the Government had gone to a great deal of expense in fitting out Emergency Hospitals with physical treatment and the Nation had to pay for it. The most important method, that by the use of Baths of various types,

had not been adopted. General Hospitals might be of value for acute cases but they rarely had any beds to spare for rheumatic cases and their Medical Staff were not as a rule interested in rheumatism. In the majority of cases bed was not the best place for rheumatic sufferers and in a General Hospital by far the largest number of patients were kept in bed.

The Director had told them they were doing very good work looking after civilians. But if the treatment here was effective for civilians it ought to be equally so for Service cases. The Board of Management felt strongly that this attitude of the Director was a slight to Harrogate and a grave reflection on the efficacy of their treatments. As a matter of fact, they had received hundreds of letters from patients expressing their gratitude.

MR. C. E. CARTER (Chairman of the Board of Management) briefly seconded the resolution, stressing the need for constant vigilance over expenditure in view of the uncertainty of the future. He expressed his gratification that his somewhat gloomy forebodings 12 months ago had not been realised.

The Reports were unanimously adopted.

MR. STANLEY BARNES (Honorary Treasurer) moving the adoption of the Accounts, said that although the Hospital showed a surplus of £1172 they had to set off against this a deficit on the Rawson Home of just over £600. He was not surprised at a falling off in annual subscriptions but against this there was a very welcome increase of some £1860 from various Societies and Organisations. From the 1st April last year the Hospital had slightly increased its charges and, so far as he knew, the extra charges had been most willingly acceded to.

On the expenditure side practically every item showed a marked decrease per capita. "Finance," however, showed an increase of nearly £327. This was due to their Insurance premiums under the War Damage Act. It was not really possible to compare the year 1941 with 1940, because after the first ten weeks their status as an Emergency Hospital was "suspended." What the year might have in store could not be foreseen but, if the Income showed a similar surplus 12 months hence they would be very agreeably surprised.

DR. A. C. SHARP seconded the adoption of the Accounts and the resolution was carried unanimously.

THE MAYOR (Coun. E. Schofield, J.P.) moved a vote of thanks to the Chairman and Board of Management for their services and proposed the re-election of Messrs. W. H. Freeman, M. E. Mail and Arthur Woodhead, together with Messrs. H. J. Guild and C. J. Simpson to fill vacancies on the Board, and that the nominees of the Hon. Medical Staff—Dr. A. C. Sharp, Dr. Wm. Yeoman, Dr. J. L. Wesley-Smith and Dr. H. Mathers be duly appointed.

He reviewed in detail the question of Spa treatment for members of Friendly Societies and the part which the Hospital and similar Institutions would be likely to play in the development of a National Scheme. Representations had been made and would continue to be made to the Government for the extension of Spa facilities for the members. They thought the Minister was wrong in apparently failing to recognise the value of Spa Services by opening Clinics in London and Sheffield. It would have been more economical to have utilised to the full all available Spa resources. He was trying to persuade the Federation of Friendly Societies to meet in Harrogate and, if successful, he would take full opportunity to bring before the members the great benefits that Harrogate and the Hospital had to offer.

MR. GEORGE CHAPMAN, seconding the resolution, said he knew, from personal experience gained elsewhere, the amount of time and trouble involved in the efficient running of voluntary institutions and their debt to the members of the Committee for the care they had given during these difficult times was a very real one.

The resolution was carried.

MR. CARTER, replying to the resolution after it had been carried, thanked the Staff for their loyalty and co-operation which had resulted in a reduction of 14% in the cost of each patient—a remarkable achievement in these times. The financial position would not have been so satisfactory had it not been for £5000 from the Ministry. It did not seem likely that a similar sum would be available this year and they must use every endeavour to economise and improve their finances. It did not seem to be generally realised that it was a National Institution. Last year their patients had been drawn from an area extending from Swansea to Stonehaven in the North of Scotland.

MR. MORRIS moved and MR. HOLMES seconded the re-election of Mr. Stanley Barnes as Honorary Treasurer, and paid

tribute to the harmonious relationship existing between the Treasurer and the Committee of Management.

MR. ARTHUR WOODHEAD moving the re-election of the Honorary Medical Staff, said that Rheumatism was one of the greatest scourges and it seemed to him that the question of treatment had three sides. Was a specialised Hospital necessary, was its treatment more efficacious than that which could be received locally; did the greatest possible number of people receive the treatment available? The answer to the first two questions lay in the fact that no one would travel 100 miles (as many did) if a specialised Hospital were not necessary or if satisfactory treatment were available locally. The answer to the third question was definitely "No." For many months the Hospital was working to full capacity, but for the remainder of the year to only about 60%. The reason was not far to seek. Most of the patients came on the advice of friends who had had personal experience of the Hospital; only a minority came on direct medical advice. He thought therefore that general practitioners did not realise the true value of specialised treatment and were mainly responsible for the Hospital not working to full capacity all the year round and he hoped that the gumption displayed by the man in the street would gradually seep through to every general practitioner.

MR. MAIL seconded the resolution, which was carried.

DR. YEOMAN, replying, thanked the Meeting for the way in which they had received the resolution. He thought another reason why the Hospital was not always working to full capacity was that doctors did not realise that the Hospital was open throughout the year and gave just as good treatment in winter as in summer. He agreed with Mr. Woodhead's other points and said that when the Medical Student left Hospital he had very little knowledge of the types of rheumatism he was likely to meet in general practice. That was a fault in the medical curriculum which they hoped would in time be altered. Indeed Physiotherapy was receiving official status and in course of time the matter would rectify itself.

MR. DAVISON (Middlesbrough) moved and MR. C. J. SIMPSON seconded the re-appointment of Messrs. Lowrey, Weston and Whalley, Chartered Accountants, Leeds and Harrogate, as Auditors for the ensuing year.

MR. CARTER moved and MR. STANLEY BARNES seconded a vote of thanks to Dr. Pringle for presiding at the Meeting.

Report of the Committee of Management

To the Right Honourable The Earl of Harewood, K.G., G.C.V.O.,
D.S.O., and Subscribers of the Royal Bath Hospital
and Rawson Convalescent Home, Harrogate.

The Committee of Management has pleasure in submitting its 116th Annual Report and Statements of Accounts for the year ended 31st December, 1941.

In compliance with a request made by the Ministry of Supply that hospitals should reduce, as far as possible, the bulk of their Annual Reports by eliminating all items which do not bear directly upon the work and financial position, your Committee has drastically curtailed many of the regular features and wholly omitted others. Among these latter are the detailed lists of Annual Subscribers, both private and corporate, and of those, who by their gifts, in cash and goods, have supported the work of the Hospital so loyally during these difficult times. To each and all of these the sincerest thanks of your Committee are gratefully accorded and it is hoped that the omission of their names will not be interpreted as implying any lack of appreciation of their kindness by those responsible for guiding the affairs of the Hospital.

The figures of the past year afford no true comparison with those of the preceding year, since in 1940 civilian work was not resumed, after its discontinuance on the outbreak of war, until 15th March, 1940, the Hospital up to that date having been reserved for the admission of Service cases and possible air raid casualties.

Although it will be seen in the Table given below that there is a drop in the number of men admitted during 1941 of no fewer than 250 this is wholly attributable to the reduced number of Service cases admitted. The number of civilian men admitted in 1941 shows an actual increase of 88 over the corresponding figure for 1940.

	1940	1941
Hospital :		
Men (including Service cases)	1,157	907
Home :		
Women	544	560
	<hr/>	<hr/>
	1,701	1,467
	<hr/>	<hr/>

During the year work has proceeded steadily and without interruption in spite of the difficulties of obtaining adequate nursing and domestic staffs and of the increasing complexities of rationing and supplies generally and no little credit is due to the Matron for the courage and success with which she has faced and overcome these ever-present problems.

The outstanding features of the year have been the acquisition by your Committee of improved accommodation for the Nursing Staff and the formation of a Sewing Party.

After very careful and prolonged consideration your Committee has taken on a short lease a suitable house, conveniently near the Hospital, which will afford good accommodation for some ten Nurses and the premises are now in process of being furnished, largely by the generous and substantial gifts of a few kind friends. The transfer of these nurses will allow the accommodation for both women patients and domestic staff in the Rawson Home to be improved. These have been questions of some urgency for some time and, in view of the possibility of building a Nurses' Home having now receded into a very distant future, your Committee feel that the step which they have taken is fully justified.

Under the energetic leadership of Mrs. Carter and Mrs. Clark a Ladies' Sewing Party has been inaugurated and meets regularly at the Hospital each week. The value of the work which is being and has been done already cannot be assessed in cash but it will undoubtedly mean a considerable annual saving to the Hospital's funds and it is much to be hoped that, in due course, it will develop into a Linen League and thereby increase still further its present scope of usefulness.

PERSONAL

Your Committee regrets to have to record the deaths of Mr. Matthew Stephenson, J.P., Capt. C. S. Greenwood, J.P., D.L., and Mr. Sam Hemsall.

With the passing of Mr. Stephenson the last link connecting the former with the present buildings has been severed. For eleven years he had filled the office of Hon. Treasurer previous to his election as a Vice-President, and at a difficult time in the history of the Hospital he had worked assiduously with the late Mr. Walter Freeman to put the finances of the Hospital on a sure foundation. The results

of their joint labours are bearing fruit to-day and the debt to them is a lasting one. Almost to the last Mr. Stephenson gave frequent evidence of his continued interest in the welfare of the Hospital.

As President of the Harrogate and District General Hospital Capt. Greenwood's attention was naturally given in the first place elsewhere, yet his association with this Hospital as Senior Trustee was close and intimate, especially in view of the wide range of his public services and it was only a short time before his death that he paid a personal visit to the Hospital in connection with its affairs. It is a source of gratification to your Committee that his son, Col. V. J. Greenwood, has consented to take his father's place as a Trustee of both the Real and Funded Property of the Hospital and that thus the family association of many years' standing will be continued.

The unexpected death of Mr. Sam Hemsall has deprived the Hospital of a valued and always welcome friend, who, among his many activities, was ever ready to exert himself to mitigate the tedium of hospital routine by providing, in conjunction with Mrs. Hemsall, much appreciated entertainments for the patients. His genial presence will long be missed and leaves a gap which is unlikely to be filled.

Your Committee has accepted with sincere regret the resignation of Mr. W. Townend who finds himself no longer able to continue on the Board of Management owing to ill-health and advancing years. During the earlier part of the nine years during which he has been a member Mr. Townend has been a regular attender at the weekly meetings and has done good, if unobtrusive, service to the Hospital.

It affords your Committee pleasure to be able to state that Mr. C. J. Simpson has kindly consented to allow his name to be put forward for one of the existing vacancies. His position as Chairman of the Baths and Wells Committee will, it is felt, be most valuable in helping to link up the affairs of the Hospital with the wider interests of the town as a Spa and good results may reasonably be expected from this closer union in the future.

FINANCE

In view of the fact that the Ministry of Health has not yet accepted the audited statements subsequent to 31st December 1939, it would be premature and fallacious to examine too closely the exact financial position. The figures

for 1941 can however be left to speak for themselves and show that the somewhat gloomy forebodings of your Committee twelve months ago have happily not been realised—yet. It is true that there is an adverse balance on the Rawson Home of £605, but this is a considerable improvement on the figure for 1940—£1,105. Some deficit indeed there will probably always be in view of the small annual yield from the Endowments.

The receipts, apart from the annual subscriptions, have been more than maintained generally speaking, and reference to the Statistical Tables on page 9 will show that the gross expenditure under all main heads, except two, has been substantially reduced with resulting decreases in the per capita rates. The conspicuous exception is “Finance,” which shows a rise from £272 to £599—an increase of £327. This sum is more than wholly accounted for by contributions under the War Damage Insurance Act (£337). This heavy burden might have been considerably lighter, but your Committee after mature deliberation decided that it was due to the subscribers and others that the Furnishings and Technical Equipment should be adequately insured. With this end in view a complete and detailed inventory and valuation was professionally made so that a true figure might be ascertained.

LEGACIES

During 1941 the balance outstanding from the estate of Anthony Brown (£1,108-5-11) and bequests from Mr. Charles Long (£1,000), Miss M. L. Musgrave (£105) and Mrs. A. E. Richardson (10th distribution, £45) have been received and credited to the Endowment Fund and invested together with £80 received as a Donation from the Executors of the late Mrs. R. D. Wood.

GREY CROSS CAMPAIGN

The chief item of interest—apart from the annual instalments under the Seven Years' Covenant Scheme—is the addition of £200 towards the Twenty Thousand Shillings Fund, which has now reached a net total of £895. This brings the end appreciably nearer, though the last stage of the journey may be expected to prove the slowest and steepest. Had it not been for the war there is little doubt that the sum aimed at would already have been obtained.

THANKS

Although, as has been stated, the various lists of those who have helped the Hospital during the past year have been omitted—for this occasion only it is hoped—one or two outstanding items call for particular reference :—

Mr. Louis Copé has most generously undertaken to be responsible for the maintenance of a bed by a substantial annual donation. Your Committee has gratefully accepted this kind offer and a suitably inscribed tablet has been placed over the bed thus supported.

Messrs. Powell, Eddison, Freeman and Wilks, Hon. Solicitors, have given much time and trouble to the appointment of new Trustees and to the legal procedure involved by the leasing of the house for the Nurses.

Mr. A. Woodmansey, M.Sc., the Borough Analyst, has been assiduous in the care and attention he has given to the character of the water supply.

The Corporation have given generous supplies of fresh vegetables and their officials, among whom should be mentioned Mr. Besant, Mr. Clarke, Mr. Roberts and Mr. West, have in many ways and at all times shown themselves considerate and helpful as occasion offered.

Miss Ackernley and Miss Kirk have throughout the year maintained a library service of irreproachable regularity and efficiency, and Miss Young has continued to give most valuable and competent clerical help.

Many kind friends, notably Mrs. May and the Congregation of St. Luke's Church, have shown frequent hospitality to the Service cases, particularly by inviting them to their homes on Christmas Day, and the Military Welfare Officer (Capt. C. W. Whitworth) has afforded generous facilities for visits to the Royal Hall.

Lastly, the travelling Cinema of E.N.S.A. has again throughout the year given much pleasure by displays of amusing and well varied films.

Report of the Hon. Medical Staff.

The work of the Hospital during 1941 has approximated to peace conditions and more than 1,100 civilian patients have been treated. In addition many military patients requiring treatment for Rheumatism and orthopaedic conditions have passed through the Hospital, the total number of treatments given exceeding 60,000. Recently in the Press attention has been drawn to the difficulty of housewives obtaining spa treatment and the Staff would like to point out that this Hospital has treated over 500 women this year. Of these the majority were wives of workers and many were engaged in factories doing war work of various kinds. By thus enabling them to regain their health and so attend to their domestic and other duties, the Hospital has considerably helped in the War effort.

In addition to the routine work of the Hospital the Staff have been concerned about the wider aspects of the treatment of Rheumatism and, after much discussion, have adopted for use during the present year a new classification of the Rheumatic group of disorders. It is hoped that, if this classification proves satisfactory after a thorough trial, it will be adopted by the other Mineral Water Hospitals and Rheumatic Centres so that useful statistics regarding the Rheumatic disorders can be completed for the whole of the country.

The activities of the Gynaecological Department have been greatly curtailed owing to war conditions, but cases requiring special investigation have been given the best attention possible in the circumstances.

War conditions have necessarily curtailed research work, but Mr. Woodmansey has been investigating the action of the Magnesia Spring water and, though the work is still proceeding, he is in a position to report that this water has a marked effect in stimulating the excretion of uric acid. Dr. Ross, our R.M.O., has also investigated the incidence of Anaemia and its treatment in Rheumatoid Arthritis.

The Staff are considerably encouraged by the foresight which the Hospital Committee has shown in acquiring a suitable house for a temporary Nurses' Home. This makes available more beds for patients and at the same time improves the working conditions for the Nurses.

The Medical Staff would like to pay tribute to the work of the whole of the Indoor and Outdoor Staffs, who have so materially assisted them in their work.

WILLIAM YEOMAN, M.D. (Chairman)

Harrogate
Royal Bath Hospital
and
Rawson Convalescent Home
1942

Old Linen will be thankfully received at the Hospital

All Annual Subscriptions are due on the First of January (see Rule 26), and are payable to the Hon. Treasurer or Secretary.

The House Committee meet every Thursday at 3 p.m.

Any person subscribing the sum of £40 becomes a Life Subscriber, and can recommend One Patient Annually—See Rule 5 (4)

Forms of Recommendation are supplied only at the time when Subscriptions are paid.

N.B.—The Committee urgently request particular attention to the Rules laid down for the admission of Patients, and beg that a strict enquiry be made into the circumstances of those who apply for recommendations. A personal knowledge of the applicant is desirable in order to prevent any attempted abuse of the Charity.

N.B.—In case of Removal to another Residence, the Subscriber will oblige the Secretary by apprising him thereof.

E. P. L. DIXON, M.A., Secretary,
Harrogate Royal Bath Hospital.

HARROGATE ROYAL BATH HOSPITAL and RAWSON CONVALESCENT HOME.

The Cost of Endowing a Bed is
£1,000.

The Hospital and Home have at the present time only four beds partly endowed out of a total of 150, and it is felt that many of our supporters could perpetuate the memory of relatives and friends in no better way than by endowing and naming a bed after them.
